

Lingua IR

Lingua Infrared receiver

Quick Start

Volume control buttons

Use the up or down buttons to adjust the volume accordingly

LCD display

Shows the ISO code of the selected language and channel number

Headphone connector

Plug in headphone to switch on the receiver

Channel selector

Press the up and down buttons to switch between channels

Clip

Use clip to attach the receiver to your clothes or belt

Keep the top part of the receiver free at all times. This part holds the infrared sensitive diode and placing objects (like stickers or headphone cords) on top of the LED will block the infrared signal and prevent you from receiving the audio.
