

Product Discontinuation Letter

5 February 2024

Dear valued partner,

This letter serves as a formal notification that Televic Conference is discontinuing the sales of the Plixus MME without Dante capabilities by May 2024.

Televic Conference acknowledges the obligation to promptly inform our customers of the intent to exit products to enable our customers to prepare for alternatives and/or to assist in their product portfolio renewal process. In that respect, we now offer Plixus Central Units with built-in Dante capability. This means that the Dante Audio Networking Card no longer needs to be installed in the Central Unit by the customer, but comes with the Central Unit and with the same functionality as with the Dante Audio Networking Card.

While we regret any inconvenience this announcement may cause, we are eager to supply your future product requirements with our new Plixus MME Dante:

Reference	Description	Replacement Ref	Replacement Description
71.98.2900	Plixus MME	71.98.2905	Plixus MME Dante

The current Plixus AE-R (without Dante capability) will remain available.

For some open orders, we might need to convert towards the new Central Units.

To serve you best, all inquiries and requests should be directed through the normal sales channels or you can contact the Televic Conference headquarters: conference@televic.com

Sincerely,

Karel Vanheule
Product Manager
