

TEL20 Headphones

TEL20 Headphones

Description

After decades of experience in the field of conferencing, the TEL20 is the apex of Televic's expertise in headphones.

A sleek design paired with secure, high-quality audio, creates the perfect pair of headphones.

The TEL20's optimal adjustment and lightweight design allows hours of use. After the conference, a simple hygienic tissue will prepare the unit for the next user, without the need to exchange expensive foam cushions.

It's flexible enough to achieve different wearing positions. Finally, the cable is very soft and TPU covered to reduce the structure-borne noise.

Features

- » Wide frequency range
- » Ultra lightweight
- » Wide adjustment range
- » Low impedance technology
- » Integrated clip on front panel
- » The headband is made of soft TPE material

Specifications

Mechanical	
Color	Black
Size (mm)	65 (w) × 10 (h) × 110 (d)
Size packed (mm)	190 (w) × 65 (h) × 215 (d)
Weight (g)	125
Cable length (mm)	1500
Cable diameter (mm)	ø 2.5
Jack	ø 3.5 mm stereo, right-angled
Ear caps diameter	ø 53 mm
Ear caps adjustment (via gimbal joint)	± 10° in each direction
Ear pads contact pressure	2.5 N
Adjustment range for head size	46 mm per side

Headphone

Driver Unit	40mm Dynamic Type
Impedance	32 Ω \pm 15%
Sensitivity	102 \pm 3 dB SPL/mW (@ 32 Ω)
THD @ nominal level	< 1% (@ 1 kHz @ 1 mW)
Frequency Range	50-15,000 Hz
