

Confidea F-BOX Dual

Description

The **Confidea F-BOX Dual** is a standard solution that delivers a full audio experience for connecting modular delegate/chairman units.

Simply connect the peripherals of your choice for a clean, fully integrated solution.

Designed as a **compact Plixus audio interface**, the Confidea F-BOX Dual can be discreetly installed under a table, between chair armrests, beneath the floor, or in any other concealed location.

The box also features two **microphone connectors**.

Thanks to the convenience of the Plixus architecture, a **single CAT 5e cable** is all that is required to connect the Confidea F-BOX Dual to the conference network.

Features & Benefits

- » Easy configuration for connecting either a microphone, a speaker, headphones, etc.
- » Integration to the Plixus network with redundant Plixus ports
- » Power over Plixus
- » High quality sound (24 bit/48 kHz)
- » Configurable as a delegate or chairperson unit via the software
- » Small footprint
- » Microphone button: dual microphone with request-to-speak button

Connectivity

- » Two microphone connectors
- » Two microphone buttons with red & green LED indication to show the status of the microphone (active or request)
- » "Prior" and "Next" buttons with red & green LED indication
- » Headphones (stereo)
- » Loudspeaker
- » Two Plixus ports for daisy chain connection

Specifications

Mechanical

Material	Steel
Color	Tiger coating Carbon 01
Size	141 x 85 x 36 mm
Size mounting bracket	175 x 50 mm
Build in depth	±30mm without cables

Electrical

Voltage	48 VDC
Current consumption	1.6-5 W

Microphone Input

Dynamic range	> 90 dB
Frequency response	20-20,000 Hz
THD @ nominal level	0.1%

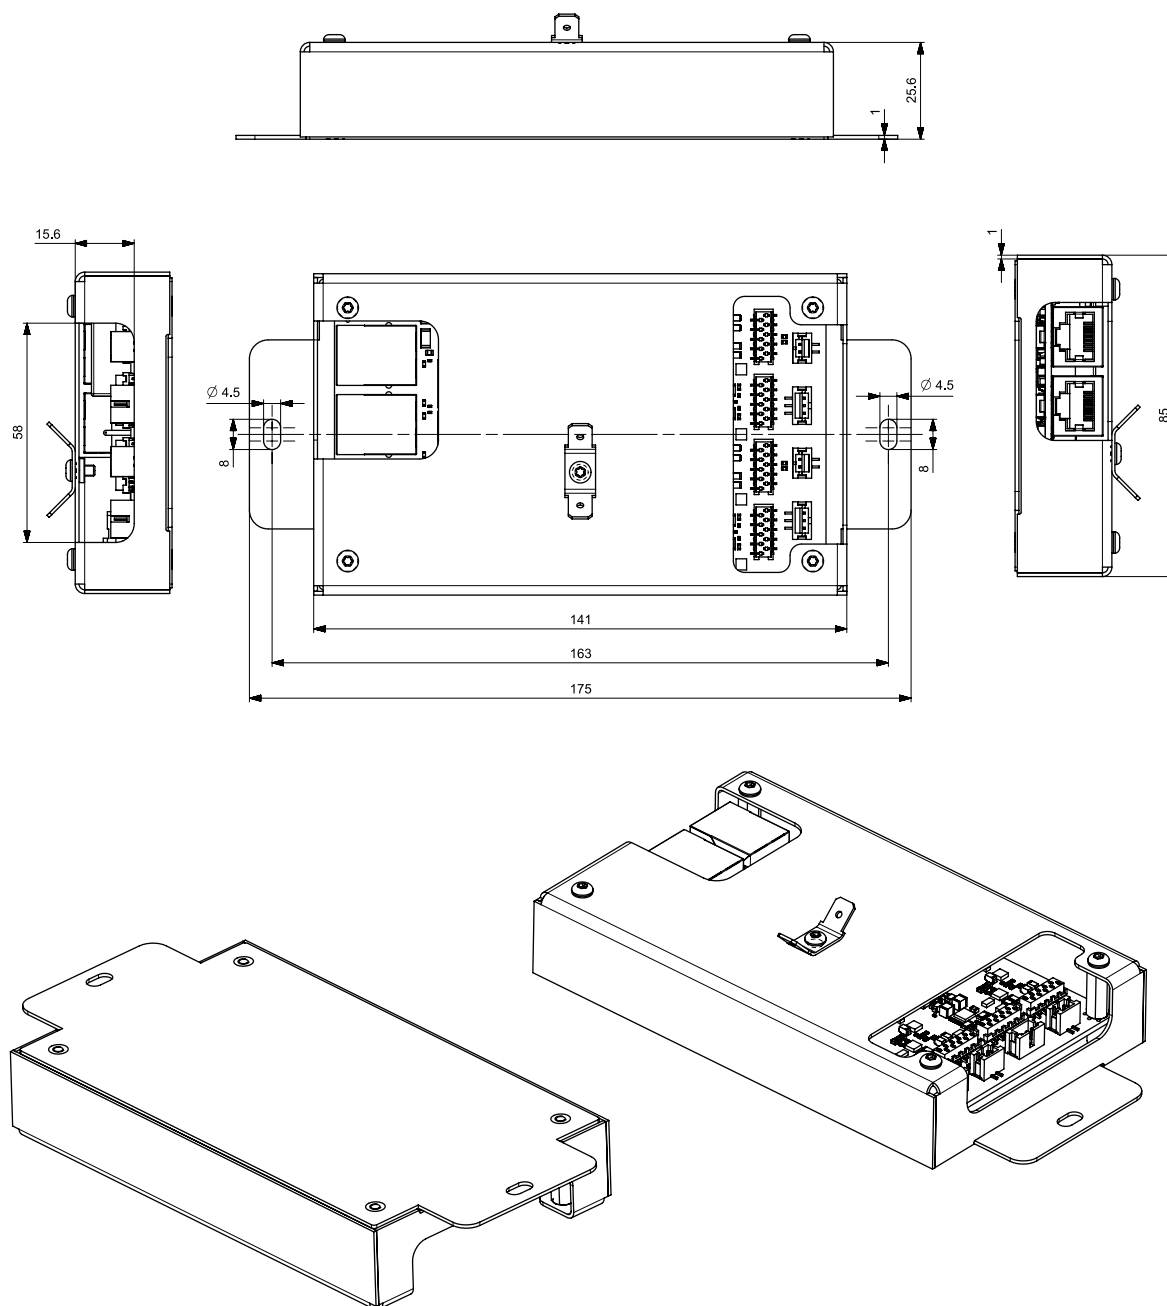

Environment

Operating temperature	0°C to 45°C
Storage temperature	-20°C to 60°C

Certification

Region	Certification
Europe	CE
