

## Product Discontinuation Letter

19 December 2022

*Dear valued partner,*

This letter serves as a formal notification that Televic Conference is replacing as of now all different Lingua IR receivers by one standard Lingua IR receiver: Lingua R.

Televic Conference acknowledges the obligation to promptly inform our customers of the intent to exit products to enable our customers to prepare for alternatives and/or to assist in their product portfolio renewal process. In that respect, any former Lingua Rx receiver can be replaced by the new Lingua R receiver

While we regret any inconvenience this announcement may cause, we are eager to supply your future product requirements with the standard Lingua R:

Reference	Description
71.98.0205	Lingua R6
71.98.0206	Lingua R12
71.98.0208	Lingua R40

Replacement Ref	Replacement Description
71.98.0208	Lingua R

The Lingua R can receive up to 40 channels and has the same capabilities as the former Lingua R40. A license for the transmitter (Lingua L12 or Lingua L40) is however still required to unlock more than 6 channels.

By reducing the number of different receivers to one, Televic wants to optimize the dry hire opportunities between rental companies.

To serve you best, all inquiries and requests should be directed through the normal sales channels or you can contact the Televic Conference headquarters: [conference@televic.com](mailto:conference@televic.com)

Sincerely,  
*Karel Vanheule*  
Product Manager
